The James Bond Cold Reading is a whole new take on the twelve lines of the 'Classic Reading' made so popular from the 50's to the present day. Julian 'Bev' Moore shows you how this much discussed but seldom used powerful cold reading technique can be applied effectively and memorised in no time at all using characters such as James Bond that you already know and love. Forget about learning stock lines and never using them - using the proven techniques in The James Bond Cold Reading, you can learn to speak in your own words and amaze people by how much you know about them using one of the most misunderstood tools of mentalism - the character reading. By bringing a modern slant to an old technique, Julian 'Bev' Moore proves once again that the old ones are the best - if only we knew how to apply them. If you're not a fan of 'stock lines' and think that learning them is a waste of time, this ebook could seriously change your mind! REVIEWS "I got Julian's book and it is wonderful! It is a great system for doing a reading and extremely practical. I applaud Julian and highly recommend this!" - Richard Osterlind "First palmistry, now general Forer-Barnum 101... this guy really amazes me." - Craig Browning "Julian has taken the Classic Reading - which isn't out of date, as some would suggest - and applied a James Bond theme to its LEARNING (not to the reading itself), to make the reading's customization so much easier. It's ingenious, simple, and thought-inspiring, all at the same time! Buy this now, and start using it right away!" - R. Lee Davis "I have tried many times to learn the stock lines of cold reading. I've tried memory techniques, linking, the peg system, and even with all that everything seemed a confusing, repetitive mess. Because of Julian's system, in two days, I have learned to give a cold reading forward, backward, inside out and in my own words. Just as with Julian's palmistry book saved me about five years of study, this book is just as good and also very interesting. If you're interested in cold reading at all this will be the best money you'll ever spend. As a side note his system could be applied to anything else you might want to memorize and make your own. I have never heard of his techniques before and I have studied a lot of memory techniques. It's so easy I will add this to my 'readings' repertoire." - Scott Martisse "So I'm finally watching the new Casino Royale and lines from the James Bond Reading keep popping unbidden into my head. What makes this interesting is I hadn't really intended on learning the reading via James Bond but via a character I know more about. I followed Julian's suggestions to practice readings aloud, even to inanimate objects. After a bit of this, I tried the real deal. This isn't something you can do mechanically, at least if you want to get maximum effect and responses. It is a matter of a give and take that is "entrancing" in its impact. I can't wait to see what more experience will bring. Thank you Julian, you really have made a significant contribution. Your ability to simplify and teach is exceptional. I generally rely on my knowledge as a psychologist to add a bit of reading but it wasn't anywhere as powerful as applying this system. Folks, don't just read JBR. Get out there and use it." - Dr Bill Cushman OTHER KINDLE BOOKS IN THE SPEED LEARNING SERIES BY JULIAN MOORE Speed Learning: Graphology - The Art Of Handwriting Analysis Speed Learning: Cartomancy - A Playing Card Reading Primer Speed Learning: Palmistry - Palm Readings In Your Own Words Speed Learning: Numerology - Numbers Past And Present With The Lo-Shu Square Speed Learning: Star Signs

Showmanship for Magicians is a 1943 work by semi-professional magician and author Dariel Fitzkee. It is the first in the Fitzkee Trilogy, a classic collection that is still read widely by magicians, conjuroprs and illusionists alike. There is little information available on the life of Dariel Fitzkee outside of his written work. Born in Annawan, Illinois, in 1898 as Dariel Comp Fitzkee, he later changed his surname to Fitzroy during World War II. But he continued to write under the name Fitzkee throughout his life. Fitzkee's early books were shorter works focused on specific magic tricks. Books like Cut and Restored Rope and Manipulation (1929) and Linking Ring Manipulation (1930) described multiple variations of these classic tricks. Fitzkee was also a regular contributor to Genii Magazine, which is still published today. He wrote two recurring magic columns in the 1930s called "Thoughts are Things" and "Glimpses of Strange Shadows." Fitzkee also contributed a book and magazine review column called "Paper and Ink" that ran for over 12 years. For all of his analysis and study on the subject, it seems that success as a professional magician eluded him. Fitzkee is said to have had an unsuccessful touring act from 1939 to 1940, after which he stopped performing. But his most enduring written works were yet to come in the form of the Fitzkee Trilogy, starting with Showmanship for Magicians. Many magicians throughout the second half of the 20th century have considered it to be a cornerstone work in the field, including the actor Steve Martin who was fanatical about magic as a young man. He described the book as "...more important to me than The Catcher in the Rye." Fitzkee was frustrated with the quality of magic at the time of his writing. He felt that the mediocrity that dominated the stages did damage to the reputation of the entire field of magic. One of his biggest issues with magic in the 1940s was that its performers were still treating the trappings of the late 1800s as the "standard" for magic. Performers often dressed in out-of-date tuxedos, wearing top hats or turbans. They adorned the stage with old-fashioned round "Magician's tables" that had been popularized some 70 years before. Fitzkee felt that magic should be "...geared and attuned to the times" to keep it fresh and interesting for the audience. Fitzkee analyzes the components of other successful forms of entertainment, like film, sporting events, theater, opera, and more. He breaks these down into a list of 39 "Audience Appeals" - music, color, comedy, conflict, etc - that can then be incorporated into a magic performance. The second book in the Fitzkee Trilogy is The Trick Brain published in 1944. This work condenses all magic tricks into 19 basic effects, such as getting a solid item to penetrate another without damaging either. It also examines how to combine effects into new and updated tricks. The final book of the trilogy, Magic by Misdirection (1945), concerns the psychology of deception, or "the attack the magician makes upon the spectator's mind." The books were written in this order on purpose. Fitzkee felt that entertainment was the primary purpose of a magician. Whatever else an audience may expect, the first thing they expect is to be entertained. Then he gets into the mechanics of magic in The Trick Brain, helping the entertainer to hone his or her skill and create original tricks. And finally, in Magic by Misdirection, Fitzkee examines the mental aspects of magic, from both the magician and the spectator's point of view.

But then a murder is committed in his flat, just days after a chance encounter with an American who had told him about an assassination plot that could have dire international consequences.
