Reviews the works and thought of the popular and influential Czech painter, poster maker, and illustrator of the Art Nouveau period

*The Poster: Art, Advertising, Design, and Collecting, 1860s-1900s* is a cultural history that situates the poster at the crossroads of art, design, advertising, and collecting. Though international in scope, the book focuses especially on France and England. Ruth E. Iskin argues that the avant-garde poster and the original art print played an important role in the development of a modernist language of art in the 1890s, as well as in the adaptation of art to an era of mass media. She moreover contends that this new form of visual communication fundamentally redefined relations between word and image: poster designers embedded words within the graphic, rather than using images to illustrate a text. Posters had to function as effective advertising in the hectic environment of the urban street. Even though initially commissioned as advertisements, they were soon coveted by collectors. Iskin introduces readers to the late nineteenth-century *ÕiconophileÕ*Na new type of collector/curator/archivist who discovered in poster collecting an ephemeral archaeology of modernity. Bridging the separation between the fields of art, design, advertising, and collecting, IskinÕs insightful study proposes that the poster played a constitutive role in the modern culture of spectacle. This stunningly illustrated book will appeal to art historians and students of visual culture, as well as social and cultural history, media, design, and advertising.

Alphonse Mucha was an extraordinarily prolific and versatile artist who made his mark in the diverse fields of design - including posters, jewellery, interior decoration, theatre, packaging and product designs - as well as in painting, book illustration, sculpture and photography. He is one of the best-known Czech artists to wide international audiences today and rose to international fame in fin-de- siècle Paris with his elegant designs for theatre posters for Sarah Bernhardt, the most famous French actress of the time, and decorative panels ( *panneaux décoratifs* ) featuring gracefully posed women. For those posters Mucha created a distinctive style - "le style Mucha" - characterised by harmonious compositions, sinuous forms, organic lines and a muted palette, which became synonymous with the newly emerging decorative style of the time - Art Nouveau. By the time of the Paris Exposition Universelle of 1900, Mucha had become a leading figure in this decorative art movement, who defined the look of the era. The catalogue explores the development of Mucha's career and overall achievements as a multifaceted and visionary artist. It is divided into six sections, highlighting Mucha's personality as Bohemian; picture maker for people; cosmopolitan; mystic; patriot and philosopher. Born in 1860 in a small Czech town, Alphonse Mucha (1860-1939) was an artist on the forefront of Art Nouveau, the modernist movement that swept Paris in the 1910s, marking a return to the simplicity of natural forms, and changing the world of art and design forever. In fact, Art Nouveau was known to insiders as the "Mucha style" for the legions of imitators who adapted the master's celebrated tableaux. Today, his distinctive depictions of lithe young women in classical dress have become a pop cultural touchstone, inspiring album covers, comic books, and everything in between. Patrick Bade and Victoria Charles offer readers an inspiring survey of Mucha's career, illustrated with over one hundred lustrous images, from early Parisian advertisements and posters for Sandra Bernhardt, to the famous historical murals painted just before his death, at the age of 78, in 1939.

At the beginning of the twentieth century, when Alfons Mucha went to the United States for four years as a lecturer, the world-famous poster designer, Art-Nouveau book illustrator, designer, photographer and painter was greeted with enthusiasm. Mucha is regarded as one of the most important representatives of Jugendstil; he knew how to move between the various genres more skilfully than virtually any other artist of his day.00After training as a stage decorator in Vienna, Mucha travelled via Munich to Paris. There he created a stir in the 1890s with his stylistically refined and elegantly executed posters. These designs were not only his artistic breakthrough; they also revolutionised the aesthetic of what was still a new medium. Mucha's later works also demonstrated the inimitable "Mucha style," which celebrated floral elements, lines and beauty and which is lavishly illustrated in this book.

Art Nouveau presents a new overview of the international Art Nouveau movement. Art Nouveau represented the search for a new style for a new age, a sense that the conditions of modernity called for fundamentally new means of expression. Art Nouveau emerged in a world transformed by industrialisation, urbanisation and increasingly rapid means of transnational exchange, bringing about new ways of living, working and creating. This book is structured around key themes for understanding the contexts behind Art Nouveau, including new materials and technologies, colonialism and

imperialism, the rise of the 'modern woman', the rise of the professional designer and the role of the patron-collector. It also explores the new ideas that inspired Art Nouveau: nature and the natural sciences, world arts and world religions, psychology and new visions for the modern self. Ashby explores the movement through 41 case studies of artists and designers, buildings, interiors, paintings, graphic arts, glass, ceramics and jewellery, drawn from a wide range of countries.

A cultural history of the Czech people, examining the significance of the small central European nation's artistic, literary, and political developments from its origins through approximately 1960.

The artistic legacy of Alphonse Maria Mucha (1860-1939), one of the founders of the Art Nouveau style, is both brilliant and bewilderingly diverse. Mucha is most famous for his Sarah Bernhardt posters and his magnificent decorative panels such as "The Seasons," works that continue to grow in popularity, despite the indifferent quality of most modern reproductions. To graphic artists and commercial designers, Mucha is praised for the innovative stylebooks that pioneered the use of Art Nouveau in commercial packaging, design, and ornament. But the primary element in all of Mucha's artistic endeavors his evocative, highly original draftsmanship has never been adequately surveyed. This collection of 70 high-quality illustrations six in black-and-white and nine in full color offers the first and only comprehensive survey of Mucha's drawings, and as such, provides a unique insight into the aesthetic qualities that were fundamental to all of the artist's work. Reproduced directly from his original drawings, these works span Mucha's entire career and include sketches for his famous book and magazine illustrations, preliminary sketches for paintings, advertising and packaging art, studies for stylebooks, etc. Famous examples include "The Seasons," full-color drawings for the complete set, plus a preliminary charcoal sketch for "Autumn"; St. Louis World's Fair poster, full-color lithograph and preliminary pencil sketch; Sarah Bernhardt, four works in India ink, pencil, etc.; and "Documents decoratifs" and "Figures decoratives," studies from Mucha's two innovative stylebooks. Naturally, many of these drawings are interesting because they reveal the initial thoughts for famous works but most basically these drawings show that Mucha's draftsmanship highly admired, even by the cantankerous Whistler was the brilliant underpinning of his entire craft. Dover (1973) original publication."

Seventy large-size illustrations trace Mucha's skills as a draftsman over more than 40 years. Among the more famous examples are original plans and drawings for "The Seasons," and sketches for the Sarah Bernhardt poster.

An art catalogue for the traveling museum exhibition *ALPHONSE MUCHA: MASTER OF ART NOUVEAU*

Alfons Mucha is known largely for having originated Art Nouveau, when his poster of the actress Sarah Bernhardt became a legendary icon

of the movement. Mucha went on to design hundreds of pieces in the decorative arts field, but later distanced himself from the style he pioneered, devoting his time and energy to painting. This book presents the full array of Mucha's artistic contributions—not only his posters and jewelry designs but also his design for the pavilion of Bosnia and Herzegovina at the 1900 World's Fair. The book also includes his works on canvas, which include pastels and frescoes, and his magnum opus, *The Slavic Epic*, a series of 20 paintings depicting the history of his native people. A stunning selection of 700 color illustrations is accompanied with essays that explore Mucha's style and inspirations, his transition away from the decorative arts, and his forays into photography. Fans of Art Nouveau will treasure this dazzling and unique study of the artist and his contributions to design and illustration.

Leonetto Cappiello is known as the Father of the Modern Poster. Combining Chéret's joyful exuberance, Toulouse-Lautrec's technique of simplified lines and flat colors, and his own background as a caricaturist, he had an original approach to using posters as eye-catching advertising tools. Cappiello's engaging posters shock, surprise, and move today's viewers as much as they did his contemporaries. This is the largest, most authoritative collection of Cappiello's work ever presented. Many of the 534 full-color poster illustrations have never been seen before. Detailed appraisals and annotations, as well as biographical information and insights into Cappiello's graphic methods, accompany each poster. Also included are fifty additional color pictures that demonstrate the many other outlets of Cappiello's talents—book and magazine illustrations, paintings, maquettes, and postcards. Particularly notable are his superb early caricatures. Today, more homes are decorated with Cappiello's posters than any other single poster artist in the world. Cappiello will show you why his posters remain so celebrated.

This stunningly illustrated book examines the history of poster design and its relation to the arts and broader culture. The poster is a versatile marketing tool widely used from the 19th century to today for everything from political events to movies. A good poster has many layers, it goes beyond advertising and makes statements about style, history, fashion, and taste at the time. It is these layers that can turn a poster into a work of art. This book showcases 480 posters by more than 200 artists and designers and tells a comprehensive history of the poster. The book includes Art Nouveau, Bauhaus, Pop art, and contemporary posters from preeminent artists such as Alphonse Mucha, Egon Schiele, Pablo Picasso, and Andy Warhol and from noted designers ranging from Lucian Bernhard and A.M. Cassandre to Saul Bass, Tadanori Yokoo, and Stefan Sagmeister. The book also introduces many other leading poster designers whose names are less well-known. Contemporary advertisements for Calvin Klein, United Colors of Benetton, and Coachella are also explored. By tracing the history of the poster, this book shows social developments throughout the world and illuminates how art styles have changed over time.
