By the end of the Spanish Civil War in March of 1939, almost 500,000 Spaniards had fled Francisco Franco's newly established military dictatorship. More than 275,000 refugees in France were immediately interned in hastily constructed concentration camps, most of which were located along the open shorelines of France's southernmost beaches. This book chronicles the cultural memory of this war refugee population whose stories as camp inmates in the early 1940s remain largely unknown, unlike the wide dissemination of the literature and testimony of the survivors of Nazi death camps. The hidden history of France's seaside camps for Spanish Republicans spawned a rich legacy of cultural works that dramatically demonstrate how a displaced political community began to reconstitute itself from the ruins of war, literally from the sands of exile. Combining close textual analyses of memoirs, poetry, drama, and fiction with a carefully researched historical perspective, *Spanish Culture behind Barbed Wire* Investigates how the most significant literature of the early post-civil war exile period appropriated the concentration camp as a discursive vehicle.

In this thoughtful and compelling book, leading Spanish literature scholar Noël Valis re-examines the role of Catholicism in the modern Spanish novel. While other studies of fiction and faith have focused largely on religious themes, *Sacred Realism* views the religious impulse as a crisis of

modernity: a fundamental catalyst in the creative and moral development of Spanish narrative.

Comics Beyond the Page in Latin America is a cutting-edge study of the expanding worlds of Latin American comics.

Despite lack of funding and institutional support, not since the mid-twentieth century have comics in the region been so dynamic, so diverse and so engaged with pressing social and cultural issues. Comics are being used as essential tools in debates about, for example, digital cultures, gender identities and political disenfranchisement.

The mythological, folkloric, and religious beliefs of Western culture have resulted in a long and ongoing history of esoteric themes in theatre from the Middle Ages to the present in Spain and the America. Now Robert Lima, a noted comparatist, brings to bear on this material his wide knowledge of the world of the occult. Lima defines the terms "occult" and "occultism" broadly to embrace the many ways in which humans have sought to fathom a secret knowledge held to be accessible only through such supernatural agencies as alchemy, angelology, asceticism, astrology, demonolatry, divination, ecstasy, magic, necromancy, possession, Santería, séances, voodoo, and witchcraft. The dramatic works covered range from medieval materializations of Hell to the Golden Age plays of Lope de Vega, Tirso de Molina, and Calderón de la Barca, to modern stage works by Valle-Inclán, García Lorca, Casona, Miras, and a number of significant Afro-Brazilian and Caribbean dramatists. The concluding comprehensive bibliography of the drama of the occult is invaluable.

A trans boy determined to prove his gender to his traditional Latinx family summons a ghost who refuses to leave in Aiden Thomas's New York Times-bestselling paranormal YA debut Cemetery Boys, described by Entertainment Weekly as "groundbreaking." Yadriel has summoned a ghost, and now

he can't get rid of him. When his traditional Latinx family has problems accepting his true gender, Yadriel becomes determined to prove himself a real brujo. With the help of his cousin and best friend Maritza, he performs the ritual himself, and then sets out to find the ghost of his murdered cousin and set it free. However, the ghost he summons is actually Julian Diaz, the school's resident bad boy, and Julian is not about to go quietly into death. He's determined to find out what happened and tie off some loose ends before he leaves. Left with no choice, Yadriel agrees to help Julian, so that they can both get what they want. But the longer Yadriel spends with Julian, the less he wants to let him leave. Praise for Cemetery Boys: Longlisted for the National Book Award "The novel perfectly balances the vibrant, energetic Latinx culture while delving into heavy topics like LGBTQ+ acceptance, deportation, colonization, and racism within authoritative establishments." —TeenVogue.com "This stunning debut novel from Thomas is detailed, heart-rending, and immensely romantic. I was bawling by the end of it, but not from sadness: I just felt so incredibly happy that this queer Latinx adventure will get to be read by other kids. Cemetery Boys is necessary: for trans kids, for queer kids, for those in the Latinx community who need to see themselves on the page. Don't miss this book." —Mark Oshiro, author of Anger is a Gift This work traces the etymologies of the entries to their earliest sources, shows their kinship to both Spanish and English, and organizes them into families of words in an Appendix of Indo-European roots. Entries are based on those of the Diccionario de la lengua española de la Real Academia Española.

The Encyclopedia of Caribbean Religions is the definitive reference for Caribbean religious phenomena from a Caribbean perspective. Generously illustrated, this landmark project combines the breadth of a comparative approach to religion with the depth of understanding of Caribbean spirituality as an ever-changing and varied historical phenomenon. Organized alphabetically, entries examine how Caribbean religious experiences have been shaped by and have responded to the processes of colonialism and the challenges of the postcolonial world. Systematically organized by theme and area, the encyclopedia considers religious traditions such as Vodou, Rastafari, Sunni Islam, Sanatan Dharma, Judaism, and the Roman Catholic and Seventh-day Adventist churches. Detailed subentries present topics such as religious rituals, beliefs, practices, specific historical developments, geographical differences, and gender roles within major traditions. Also included are entries that address the religious dimensions of geographical territories that make up the Caribbean. Representing the culmination of more than a decade of work by the associates of the Caribbean Religions Project, The Encyclopedia of Caribbean Religions will foster a greater understanding of the role of religion in Caribbean life and society, in the Caribbean diaspora, and in wider national and transnational spaces.

Requiem per un campesino espanol was first published under the title Mosen Millan in Coleccion Aquelarre, Mexico, 1953. The present text follows the first Spanish edition published by Destino, Barcelona, 1974, which bears a few minor variants, mainly in paragraph structure. It has been reprinted a number of times and translated into many languages and is one of the most widely read Spanish texts in the 20th century. This edition is aimed primarily at sixth-formers and university undergraduates and the introduction and notes have been compiled in the light of recent socio-political topic-based syllabuses and communication studies courses. The inclusion in the introduction of a substantial section on the now out-of-print "Contraataque" (1937), the wartime narrative which contains the germ of the post-war novel, is intended to provide the student with a context for the study of the process in Sender's writing inspired by the Civil War - from explicit militant propaganda penned in the heat of battle to implicit poetic parable, historical emotion recollected in the comparative tranquillity and distance of exile. It is hoped that such a juxtaposition will illuminate both the content and literary achievement of "Requiem"

Animals were everywhere in the early modern period and they impacted, at least in some way, the lives of every kind of early modern person, from the humblest peasant to the greatest prince. Artists made careers based on depicting them. English gentry impoverished themselves

spending money on them. Humanists exercised their scholarship writing about them. Pastors saved souls delivering sermons on them. Nobles forged alliances competing with them. Foreigners and indigenes negotiated with one another through trading them. The nexus between animal-human relationships and early modern identity is illuminated in this volume by the latest research of international scholars working on the history of art, literature, and of sixteenth- and seventeenth-century Germany, France, England, Spain, and South Africa. Collectively, these essays investigate how animals - horses, dogs, pigs, hogs, fish, cattle, sheep, birds, rhinoceroses, even sea-monsters and other creatures - served people in Europe, England, the Americas, and Africa to defend, contest or transcend the boundaries of early modern identities. Developments in the methodologies employed by scholars to interrogate the past have opened up an intellectual and discursive space for - and a concomitant recognition of - the study of animals as a topic that significantly elucidates past and present histories. Relevant to a considerable array of disciplines, the study of animals also provides a means to surmount traditional disciplinary boundaries through processes of dynamic interchange and cross-fertilization.

Nepantla Familias brings together Mexican American narratives that explore and negotiate the many permutations of living in between different worlds—how the authors or their characters create, or fail to create, a cohesive identity amid the contradictions in their lives. Nepantla—or living in the in-between space of the borderland—is the focus of this anthology. The essays, poems, and short stories explore the in-between moments in Mexican American life—the family dynamics of living between traditional and contemporary worlds, between Spanish and English, between cultures with traditional and shifting identities. In times of change, family values are either adapted or discarded in the quest for self-discovery, part of the process of selecting and composing elements of a changing identity. Edited by award-winning writer and scholar Sergio Troncoso, this anthology includes works from familiar and acclaimed voices such as David Dorado Romo, Sandra Cisneros, Alex Espinoza, Reyna Grande, and Francisco Cantú, as well as from important new voices, such as Stephanie Li, David Dominguez, and ire'ne lara silva. These are writers who open and expose the in-between places: through or at borders; among the past, present, and future; from tradition to innovation; between languages; in gender; about the wounds of the past and the victories of the present; of life and death. Nepantla Familias shows the quintessential American experience that revives important foundational values through immigrants and the children of immigrants. Here readers will find a glimpse of contemporary Mexican American

experience; here, also, readers will experience complexities of the geographic, linguistic, and cultural borders common to us all.

Volume 5 provides an account and interpretation of the historical development of the region from around 1930 to the end of the twentieth century. Its wide ranging study of the economic, political, religious, social and cultural history of this period brings the series to the authorial present. Highlights include the 'turbulent thirties;' decolonization; the 'turn to the left' made in the 1970s by anglophone Caribbean countries; the Castro Revolution; and changes in social and demographic structures, including ethnicity and race consciousness and the role and status of women.

Francisco Goya y Lucientes (1746-1828) created magnificent paintings, tapestry designs, prints, and drawings over the course of his long and productive career. Women frequently appeared as the subjects of Goya's works, from his brilliantly painted cartoons for the Royal Tapestry Factory to his stunning portraits of some of the most powerful women in Madrid. This groundbreaking book is the first to examine the representations of women within Goya's multifaceted art, and in so doing, it sheds new light on the evolution of his artistic creativity as well as on the roles assumed by women in late eighteenth- and early nineteenth-century Spain. Many of Goya's most famous works are featured and explicated in this beautifully designed and produced book. The artist's famous tapestry cartoons are included, along with the tapestries woven after them for the royal palaces of the Prado and the Escorial. Goya's infamous Naked Maja and Clothed Maja are also highlighted, with a discussion on whether these works were painted at the same time and how they might have originally hung in relation to one another. Focus is also placed on Goya's more experimental prints and drawings, in

which the artist depicted women alternatively as targets of satire, of sympathy, or of admiration. Essays by eminent authorities provide a historical and cultural context for Goya's work, including a discussion on the significance of fashion and dress during the period. The resultant volume is surely to be treasured by all who admire Goya's art and by those who are interested in women's issues of his time.
