"This book is about marketing and marketing strategy planning. At its essence, marketing strategy planning is about figuring out how to do a superior job of satisfying customers. This edition we focused on (1) marketing analytics, (2) currency, and (3) active learning"-- This book will help you answer questions like: What is the impact of our company or organization? What common ground do we share with our customers? Is our company more concerned about enhancing its own value rather than enhancing the value of the people we serve? How can we actually show people what we can do for them, rather than just rely on our advertising and marketing to tell them? What is standing in the way of people responding to us? How is using our product or service better than using a competitor's? What things do we need to be doing right now so we can keep providing the same quality in the future? A great read with discussion questions at the end of each chapter. You can use it for yourself, a team building exercise, or an executive retreat. The book is a great discussion starter for any business! The second edition of International Marketing includes greater coverage of digital marketing, social and interactive marketing. For example, Sri Lankan farmers connecting to markets via mobile phones, Indonesia and intellectual property rights violations and how high fashion is harnessing the internet to become more accessible. It also benefits from increased focus on ethics and sustainability as well as more content relating to emerging markets as a direct result of market feedback. In this era of rapid global economic growth and change, an understanding of how marketing is impacted by culture and society is vitally important. This leading text provides a well-rounded perspective of international markets that encompasses history, geography, language, and religion as well as economics. Cateora helps students to see the cultural and environmental uniqueness of any nation or region. This edition provides a particular focus on the changing dynamics in the Asia Pacific region and their importance in the wider global context.

Breakthrough Marketing Plans is an essential tool for people who create marketing plans and people who review them. The book provides simple, clear frameworks that are easy to apply, and highlights why marketing plans matter, where they go wrong and how to create a powerful plan that will help build a strong, profitable business.
