"This book interrogates the peace process by developing and applying concepts from the philosophy of Jacques Derrida, applying this novel analysis of the contested post-conflict political situations. The approach will both examine how this political context has developed, and provide a means of moving beyond it, through a 'deconstructive conclusion' which targets historical narratives of the conflicts, while simultaneously disrupting their contemporary political consequences. This provides a fresh interpretation of how the entrenchment of division in Northern Ireland and Bosnia and Herzegovina transpires, an examination of the ways in which this reification of division fails, and a means of moving beyond the dysfunction produced by this failure. This study provides a key contribution to both peacebuilding and Derridean scholarship within IR, through bringing a new critical perspective to the peacebuilding literature, and by demonstrating the utility of Derrida's key ideas through their application to fresh empirical terrain. This theoretical approach will demonstrate how Derridean concepts can be utilised to provide deep understandings of the real-world events under discussion, as well as allowing political interventions to be made into these processes"--

The deep and abiding sectarian divide splintering Northern Ireland has been the focus of considerable attention recently. In particular, the role parades and visual displays play in underscoring opposition has come into the spotlight with the emergence of heightened tensions, close on the heels of a tentative peace. Providing penetrating insights into the historical roots of Northern Ireland's ethnic hostilities, this timely book explores the role of images and material culture in shaping present attitudes. Ritual, identity, class and memory are shown to be potent forces informing trenchant animosities -- animosities which are visually reflected in banners and murals for unionists and nationalists alike. The pivotal role of the Twelfth of July parade in Belfast, when an estimated 100,000 either parade or watch the Orangemen, is highlighted. Anyone interested in the future of Northern Ireland and concerned about escalating conflict across the globe will warmly welcome this impressive study.

"This book provides an overview of current social psychological scholarship on collective victimhood. Drawing on different contexts of collective victimization-such as due to genocide, war, ethnic or religious conflict, racism, colonization, Islamophobia, the caste system, and other forms of direct and structural collective violence-this edited volume presents theoretical ideas and empirical findings concerning the psychological experience of being targeted by collective violence in the past or present. Specifically, the book addresses questions such as: How are experiences of collective victimization passed down in groups and understood by those who did not experience the violence personally? How do people cope with and make sense of collective victimization of their group? How do the different perceptions of collective victimization feed into positive versus hostile relations with other groups? How does group-based power shape these processes? Who is included in or excluded from the category of "victims", and what are the psychological consequences of such denial versus acknowledgment? Which individual psychological processes such as needs or personality traits shape people's responses to collective victimization? What are the ethical challenges of researching collective victimization, especially when these experiences are recent and/or politically contested? This edited volume offers different theoretical perspectives on these questions, and shows the importance of examining both individual and structural influences on the psychological experience of collective victimhood-including attention to power structures, history, and other aspects of the social and political context that help explain the diversity in experiences of and responses to collective victimization"--

In this study, E. Frances King explores how people first learn to relate to the images and artefacts of religious belief within their domestic environments. As a sense of religious belonging is instilled on a daily basis in the home, it also becomes emotionally linked to family, community, and homeland, resulting in two different genealogies – one to do with faith and one to do with motherland – that become entangled.

Versions of Ireland brings a refined postcolonial theoretical optic to bear on many of the most urgent questions within contemporary Irish cultural studies. Drawing on, and extending, the most advanced critical work within the discipline, the book offers a subtle critical genealogy of the development of Ireland's diverse postcolonial projects. Furthermore, it reflects on the relevance and the effectiveness of postcolonial and subaltern historiographical methodologies in an Irish context, interrogating the ethical and political problematics of such discursive importation.

Flannery's work highlights the operative dynamics of imperial modernity, together with its representational agents, in Ireland, and also divines moments of explicit and implicit resistance to modernity's rationalising and accumulative urges. The book is pioneering in the facility and ease with which it navigates the interdisciplinary terrain of Irish studies. Flannery provides enabling and challenging new readings of the poetry of the bi-lingual poet, Michael Hartnett; the politically imaginative vistas of the republican mural tradition in the North of Ireland; the gothic anxieties inherent in the fiction of Eugene McCabe and the semi-fictional writing of Seamus Deane, and the differential codes of visual surveillance apparent in Irish tourist posters and late nineteenth century photography in Ireland. Versions of Ireland does not dwell on the exclusively theoretical, but offers rich critical analyses of a range of Irish cultural artefacts in terms of Ireland's protracted colonial history and contested postcolonial condition.

This book uncovers a new genre of 'post-Agreement literature', consisting of a body of texts – fiction, poetry and drama – by Northern Irish writers who grew up during the Troubles but

published their work in the aftermath of the Good Friday Agreement. In an attempt to demarcate the literary-aesthetic parameters of the genre, the book proposes a selective revision of postcolonial theories on 'liminality' through a subset of concepts such as 'negative liminality', 'liminal suspension' and 'liminal permanence.' These conceptual interventions, as the readings demonstrate, help articulate how the Agreement's rhetorical negation of the sectarian past and its aggressive neoliberal campaign towards a 'progressive' future breed new forms of violence that produce liminally suspended subject positions.

Including detailed guidance to exploring the countryside and historic sites, this fully revised guide offers a complete picture of the beautiful island of Ireland, north and south. of color photos. For nearly thirty years Northern Ireland has been a by-word for terrorism, bloodshed, military coercion and intense communal conflict. However, Ireland is now experiencing a transition from a society in conflict to one at peace. Where did the violence come from and why could it not be pacified? Why has it taken thirty years to solve the Northern Irish conflict, and why did early attempts at settlement fail? Jeremy Smith explores these questions by placing the events in context with wider British and European patterns, giving the first in-depth study of the history of the peace process in Northern Ireland.

Lee Smithey examines how symbolic cultural expressions in Northern Ireland, such as parades, bonfires, murals, and commemorations, provide opportunities for Protestant unionists and loyalists to reconstruct their collective identities and participate in conflict transformation.

Music, the Moving Image and Ireland, 1897–2017 constitutes the first comprehensive study of music for screen productions from or relating to the island. It identifies and interprets tendencies over the first 120 years of a field comprising the relatively distinct yet often overlapping areas of Irish-themed and Irish-produced film. Dividing into three parts, the book first explores accompaniments and scores for 20th-century Irish-themed narrative features that resulted in significant contributions by many Hollywood, British, continental European and, to a lesser extent, Irish composers, along with the input of many orchestras and other musicians. Its second part is framed by a consideration of various cultural, political and economic developments in both the Republic of Ireland and Northern Ireland from the 1920s (including the Troubles of 1968–1998). Focusing on scoring and other aspects of soundtrack production for domestic newsreel, documentary film and TV programming, it interprets the substantial output of many Irish composers within this milieu, particularly from the 1960s to the 1990s. Also referring to broader cultural and historical themes, the book's third and final part charts approaches to and developments in music and sound design over various waves of Irish cinema, from its relatively late emergence in the 1970s to an exponential growth and increasingly transnational orientation in the early decades of the 21st century.

The media are inextricable from controversy yet "controversy" is an under-theorized term in studies of the media, even though controversies over specific images, from "video nasties" to snapshots from Abu Ghraib, have structured our understanding of the media's power, seductiveness and dangers. This collection offers a series of case studies of recent media controversies and draws on new perspectives in cultural studies to consider a wide variety of types of image, including newspaper cartoons, advertising and fashion photography, music videos, photojournalism, news media, art works, hardcore porn film, anime, horror and exploitation movies, video games, and YouTube reaction videos. In the current climate when images appear to be increasingly controversial, it is important that media controversies are not made the excuse for greater censorship and the demonization of "dangerous" images and the audiences that consume them. The case studies in this book suggest how we might achieve a more subtle understanding of controversial images and negotiate the difficult terrain of the new media landscape.

This book is unique in recording the history of all the Protestant churches in Ireland in the twentieth century, though with particular focus on the two largest - the Presbyterian and the Church of Ireland. It examines the changes and chances in those churches during a turbulent period in Irish history, relating their development to the wider social and political context. Their structures and beliefs are examined, and their influence both in Ireland and overseas is assessed.

Once assumed to be a driver or even cause of conflict, commemoration during Ireland's Decade of Centenaries came to occupy a central place in peacebuilding efforts. The inclusive and cross-communal reorientation of commemoration, particularly of the First World War, has been widely heralded as signifying new forms of reconciliation and a

greater "maturity" in relationships between Ireland and the UK and between Unionists and Nationalists in Northern Ireland. In this study, Jonathan Evershed interrogates the particular and implicitly political claims about the nature of history, memory, and commemoration that define and sustain these assertions, and explores some of the hidden and countervailing transcripts that underwrite and disrupt them. Drawing on two years of ethnographic fieldwork conducted in Belfast, Evershed explores Ulster Loyalist commemoration of the Battle of the Somme, its conflicted politics, and its confrontation with official commemorative discourse and practice during the Decade of Centenaries. He investigates how and why the myriad social, political, cultural, and economic changes that have defined postconflict Northern Ireland have been experienced by Loyalists as a culture war, and how commemoration is the means by which they confront and challenge the perceived erosion of their identity. He reveals the ways in which this brings Loyalists into conflict not only with the politics of Irish Nationalism, but with the "peacebuilding" state and, crucially, with each other. He demonstrates how commemoration works to reproduce the intracommunal conflicts that it claims to have overcome and interrogates its nuanced (and perhaps counterintuitive) function in conflict transformation. Tying in with the events of The Gathering and Derry becoming the City of Culture, this is a new edition of East Belfast, by Keith Haines, a pictorial history of the development of the area.

Once a country of emigration and diaspora, in the 1990s Ireland began to attract immigration from other parts of the world: a new citizenry. By the first decade of the twenty-first century, the ratio between GDP and population placed Ireland among the wealthiest nations in the world. The Peace Agreements of the mid-1990s and the advent of power-sharing in Northern Ireland have enabled Ireland's story to change still further. No longer locked into troubles from the past, the Celtic Tiger can now leap in new directions. These shifts in culture have given Irish literature the opportunity to look afresh at its own past and, thereby, new perspectives have also opened for Irish Studies. The contributors to this volume explore these new openings; the essays examine writings from both now and the past in the new frames afforded by new times.

For anyone interested in Northern Ireland, it's history, it's culture, it's music.... finally here comes a book that offers a new approach into understanding the complex diversity that has shaped Northern Irish society and its people during the times of the Troubles and beyond. Like poems, songs, in their own right, should be recognised as historical documents. From Mickey McConnells Only our Rivers Run Free and Phil Coulter The Town I loved so Well to Tommy Sands There Were Roses - political & social developments inspired Northern Irish poets and songwriters alike. By incorporating a great amount of background information on the artists mentioned above and resulting from personal interviews with the author a very unique insight into the history of Northern Ireland is given. In addition, the vast amount of songs written from an outsiders perspective and in particular in the Rock and Popmusic Genre such as Paul McCartney's Give Ireland back to the Irish, John Lennon's Sunday, Bloody Sunday to James Taylor's Belfast to Boston and Katie Melua's Belfast, also required appropriate recognition. Together, all these songs compiled and discussed in this book will provide the reader with a better understanding of Northern Ireland's history, its society, its people past and present. Whether it is for further academic research or simply used as reference material for anyone interested in Irish Music and Songs about and from Northern Ireland, this book will remain an essential guide and reference book in years to come.

This collection of essays investigates such diverse vehicles for war commemoration as poems, battlefield tours, souvenirs, books, films, architectural structures, comics, websites, and video games. Drawing on essayists from Australia, Canada, Great Britain, Israel and the United States, this work explores the evolution from traditional to contemporary forms of war commemoration while addressing the fundamental question of whether these new forms of memorial are meant to encourage the remembering or the forgetting of the experience of war, as well as what implications the process of commemoration may have for the continuation of the modern nation state. Instructors considering this book for use in a course may request an examination copy here.

This book, drawn from the award-winning online Oxford Dictionary of National Biography, tells the story of our recent past through the lives of those who shaped national life. Given sport's centrality in English society, what role does it play in symbolising contemporary English national identity? This comprehensive study explores the complex set of relationships between sport and what it means to be English in the twenty-first century. The bond between sport and nationalism has long been recognised, but with increasingly vociferous separatist nationalisms threatening the dismantling of the United Kingdom, a closer analysis is timely. Part one addresses key debates regarding English national identity within the specific sporting contexts of association football, cricket, tennis, cycling and rugby. Part two discusses the complex relationship between religion, sport and English national identity as well as the attitudes and experiences of traditionally marginalized groups, including women, minority ethnic groups and disabled people. Part three considers the perspectives of the other UK nations on the link between sport and English national identity. Sport and English National Identity in a 'Disunited Kingdom' is

fascinating reading for all those with an interest in the sociology, politics and history of sport, and the study of nations, nationalism and national identity.

This fascinating collection of over 200 photographs reflects the history, character, life and people of East Belfast over the last one hundred years.

This collection of critical essays finds itself at the intersection of cultural, literary and film studies, and explores the various ways in which dysfunction is expressed in Irish studies.

Dysfunction can be regarded as part and parcel of a portrayal of a landscape of trauma and crisis that may have been traditionally repressed in Ireland at large. However, dysfunction also envisages mediation, managing, transcending and healing. As such, this volume examines how Ireland tackles dysfunction at large, but more importantly, how mediation, managing, healing and transcending help in the understanding of the ever-changing and on-going process of the construction of an Irish identity today; sometimes looking back at the past, but always creating the need of inventing new ways to understand the future of Ireland. The collection presents essays which tackle dysfunction from different and multifarious perspectives that range from sociological, historical and literary discourses to more contemporary insights into dysfunction in today's Ireland. It encompasses theory and analysis and includes the works of both senior academics and emerging scholars, as well as those outside academia.
