This best-selling textbook combines theory and practice to present a broad introduction to the opportunities and challenges of teaching English in secondary school classrooms. Each chapter explains the background to current debates about teaching the subject and provides tasks, teaching ideas, and further reading to explore issues and ideas in relation to school experience. Already a major text for many university teaching courses, this new edition has been thoroughly updated in the light of new legislation and includes fresh chapters on the National Literacy Strategy, Media and ICT. Other chapters suggest a broad range of approaches to teaching such crucial areas as: reading and writing, speaking and listening drama, media studies and information technology grammar, poetry and language study Shakespeare post-16 English language and literature Written particularly with the new and student teacher in mind, this book offers principles and practical examples of teaching and learning in a twenty-first century context as new notions of literacy compete with demands of national assessment. Taking these changing ideologies as a starting point, the text also addresses questions about the nature of teacher education. It raises issues concerning competence-based courses, working with a mentor in school and monitoring the development of a student teacher.

First published in 1985, the Handbook for Achieving Gender Equity Through Education quickly established itself as the essential reference work concerning gender equity in education. This new, expanded edition provides a 20-year retrospective of the field, one that has the great advantage of documenting U.S. national data on the gains and losses in the efforts to advance gender equality through policies such as Title IX, the landmark federal law prohibiting sex discrimination in education, equity programs and research. Key features include: Expertise – Like its predecessor, over 200 expert authors and reviewers provide accurate, consensus, research-based information on the nature of gender equity challenges and what is needed to meet them at all levels of education. Content Area Focus – The analysis of gender equity within specific curriculum areas has been expanded from 6 to 10 chapters including mathematics, science, and engineering. Global/Diversity Focus – Global gender equity is addressed in a separate chapter as well as in numerous other chapters. The expanded section on gender equity strategies for diverse populations contains seven chapters on African Americans, Latina/os, Asian and Pacific Island Americans, American Indians, gifted students, students with disabilities, and lesbian, gay, bisexual, and transgender students. Action Oriented – All chapters contain practical recommendations for making education activities and outcomes more gender equitable. A final chapter consolidates individual chapter recommendations for educators, policymakers, and researchers to achieve gender equity in and through education. New Material – Expanded from 25 to 31 chapters, this new edition includes: *more emphasis on male gender equity and on sexuality issues; *special within population gender equity challenges (race, ability and disability, etc); *coeducation and single sex education; *increased use of rigorous research strategies such as meta-analysis showing more sex similarities and fewer sex differences and of evaluations of implementation programs; *technology and gender equity is now treated in three chapters; *women's and gender studies; *communication skills relating to English, bilingual, and foreign language learning; and *history and implementation of Title IX and other federal and state policies. Since there is so much misleading information about gender equity and education, this Handbook will

be essential for anyone who wants accurate, research-based information on controversial gender equity issues—journalists, policy makers, teachers, Title IX coordinators, equity trainers, women's and gender study faculty, students, and parents.

This book provides ways of thinking for preservice and new teachers to transition from the theory behind curricular design to engaged teaching and learning in the classroom. It offers a comprehensive framework for the creation and implementation of one's own authentic and effective ELA curriculum. In addition to strategies for preservice teachers to develop their own pedagogies, lessons, and teaching techniques, Costigan also demonstrates how to design tools for teaching in the current testing- and standards-driven context of the educational reform movement. Containing real-life examples of reading and writing instruction, this book empowers preservice teachers to translate the concepts of curriculum design to actual ELA classroom practices that will engage students.

This book adopts a multi-method and multi-phase approach to investigate the washback effects of Test for English Majors (TEM) on program administrators, teachers and students, shedding new light on TEM reform and the reform of English teaching and learning in China. TEM, a nationwide test used to measure the language proficiency of undergraduate English majors in China, is a major standardized test taken by nearly 400,000 students every year. The book's key features include: an in-depth discussion of the nature of washback and a framework for investigating it; a multi-method and multi-phase approach, employing both the quantitative method of questionnaire surveys and the qualitative methods of interviews and classroom observations; large-scale questionnaire surveys conducted among experts, program administrators, teachers and students, and involving over 30,000 participants; detailed assessments of TEM's washback effects on stakeholders' perceptions, classroom teaching practice, students learning activities, etc.; and essential insights into testing and teaching reforms.

Right from its formal introduction in India in 1835, through Thomas B. Macaulay's Minute, English has been intrinsically linked with the employment prospects of Indians. During their regime, the British promoted English education to fulfil the requirement of English-knowing Indians for administrative purposes. Owing to globalization, the last few years have witnessed the opening up of thousands of lucrative job opportunities for graduates proficient in English. English has gained importance in India as the language of opportunities. In colonial India, English education was a passport to government jobs, while in the twenty-first century, proficiency in English is essential for private sector jobs. This book examines the development of curricula in English in Indian universities vis-a-vis the needs of second language learners studying in Special English programmes of Bachelor of Arts (BA). It also reflects on how globalization has strengthened the connection between English and employment.

networking and communicating with colleagues around the world as a means of overcoming those challenges. A richly differentiated view on what it means to be an English teacher is offered, as are fascinating narratives about the diverse efforts of teachers in different communities. Points of view from contributors in North America, Australia, Chile, New Zealand, New Guinea, South Africa, and the United Kingdom are expressed and placed in an illuminating context with practical and theoretical considerations about teaching English.

This volume draws together the viewpoints and research findings of leading scholars and informed local practitioner-researchers throughout Asia-Pacific about the issues and challenges of English as a medium of instruction (EMI) at higher education institutions in that region. Specifically, it addresses four key themes: Macro-level EMI policy and practice; institutional implications for pedagogy; stakeholder perceptions of EMI; and challenges of interpersonal interaction in EMI contexts. The book is among the first to critically examine the emerging global phenomenon of English as a medium of instruction, and the first title to exclusively explore Asia-Pacific tertiary contexts. It will be of particular interest to policy-makers in international education and tertiary educators seeking blueprints for practice, as well as scholars and postgraduate students of English as a lingua franca, English for academic purposes, academic language and learning, and language education in Asia-Pacific.
