They are: 1) understanding issues and their development, 2) strategy formulation, 3) analyzing the news media, 4) political analysis, 5) market failures, 6) the economics and politics of government intervention, 7) the economics and politics of international trade, 8) country analysis, and 9) ethics analysis and decision-making. These frameworks are based in the disciplines of economics, political science, law, and ethics and are applied to the environment of business in the United States and other countries, including China, Japan, and the European Union. The book contains 73 case studies, including Microsoft, eBay, ScheringPlough, Citigroup, DoubleClick, and British Petroleum. For managers in firms in the United States and other countries, and government employees whose jobs deal with the policy-making and business.
