Nowhere in the New Testament does it say that a Christian leader, because of title or position, has moral authority over another Christian. Those who don't follow Jesus will seek offices that grant them power and authority to exert their control over others. Jesus said that His people were not to rule over others but to serve others selflessly and to love others unconditionally. When a church or home gives in to Fraudulent Authority, the people of Christ become more pagan in practice than Christian. Fraudulent Authority teaches you how to recognize this dangerous practice of Christians seeking to exert power and authority over people in evangelical churches and homes and what you can do about it.

In the 1930s, Lewis's dad, Lewis Michaux Sr., had an itch he needed to scratch—a book itch. How to scratch it? He started a bookstore in Harlem and named it the National Memorial African Bookstore. And as far as Lewis Michaux Jr. could tell, his father's bookstore was one of a kind. People from all over came to visit the store, even famous people—Muhammad Ali, Malcolm X, and Langston Hughes, to name a few. In his father's bookstore people bought and read books, and they also learned from each other. People swapped and traded ideas and talked about how things could change. They came together here all because of his father's book itch. Read the story of how Lewis Michaux Sr. and his bookstore fostered new ideas and helped people stand up for what they believed in.

Celebrating ten years of the Hugo-nominated and New York Times-bestselling October Daye urban fantasy series comes a new hardcover anniversary edition of the book that started it all, with a new bonus novella. The world of Faerie never disappeared; it merely went into hiding, continuing to exist parallel to our own. Secrecy is the key to Faerie's survival—but no secret can be kept forever, and when the fae and mortal worlds collide, changelings are born. Outsiders from birth, these half-human, half-fae children spend their lives fighting for the respect of their immortal relations. Or, in the case of October "Toby" Daye, rejecting it completely. After getting burned by both sides of her heritage, Toby has denied the fae world, retreating into a "normal" life. Unfortunately for her, Faerie has other ideas... The murder of Countess Evening Winterrose, one of the secret regents of the San Francisco Bay Area, pulls Toby back into the fae world. Unable to resist Evening's dying curse, Toby must resume her former position as knight errant to the Duke of Shadowed Hills and begin renewing old alliances that may prove her only hope of solving the mystery...before the curse catches up with her. This edition features an all-new October Daye novella, Strangers in Court. Toby knew what she was doing when she threw her lot in with Devin, but when the time comes to get out, she has a little less of a clue. In order to win her freedom, she must do something to impress the local nobility—and the collapse of the Queen's knowe would seem to be exactly the opportunity she's been waiting for to prove herself! Set well before the events of Rosemary and Rue, this is a rare look at Toby's past as a changeling street rat, before she discovered her destiny as a Hero of the Realm.

Winner of the Randolph Caldecott Medal and the Coretta Scott King Illustrator Award Jean-Michel Basquiat and his unique, collage-style paintings rocketed to fame in the 1980s as a cultural phenomenon unlike anything the art world had ever seen. But before that, he was a little boy who saw art everywhere: in poetry books and museums,

in games and in the words that we speak, and in the pulsing energy of New York City. Now, award-winning illustrator Javaka Steptoe's vivid text and bold artwork echoing Basquiat's own introduce young readers to the powerful message that art doesn't always have to be neat or clean--and definitely not inside the lines--to be beautiful. An eye-opening introduction to the complex world of esoteric Christianity—perfect for the general reader This guide to mystical and esoteric Christianity speaks from a nonsectarian point of view, unearthing insights from the whole of the Christian tradition, orthodox and heretical, famous and obscure. The esoteric tradition has traditionally searched for meanings that would yield a deeper inner knowledge of the divine. While traditional Christianity draws a timeline from Adam's Fall to the Day of Judgment, the esoteric often sees time as folding in on itself, bringing every point to the here and now. While the Church fought bitterly over dogma, the esoteric borrowed freely from other traditions—Kabbalah, astrology, and alchemy—in their search for metaphors of inner truth. Rather than basing his book around exponents of esoteric doctrine, scholar Richard Smoley concentrates on the questions that are of interest to every searching Christian. How can one attain direct spiritual experience? What does "the Fall" really tell us about coming to terms with the world we live in? Can we find salvation in everyday life? How can we ascend, spiritually, through the various levels of existence? What was Christ's true message to humankind? From the Gospel of Thomas to A Course in Miracles, from the Jesus Prayer to alchemy and Tarot, from Origen to Dante to Jung, Richard Smoley sheds the light of an alternative Christianity on these issues and more. Will the love of God save us all? In this book Thomas Talbott seeks to expose the extent to which the Western theological tradition has managed to twist the New Testament message of love, forgiveness, and hope into a message of fear and guilt. According to the New Testament proclamation, he argues, God's love is both unconditional in its nature and unlimited in its scope; hence, no one need fear, for example, that God's love might suddenly turn into loveless hatred at the moment of one's physical death. For God's love remains the same yesterday, today, and forever. But neither should one ignore the New Testament theme of divine judgment, which Talbott thinks the Western theological tradition has misunderstood entirely. He argues in particular that certain patterns of fallacious reasoning, which crop up repeatedly in the works of various theologians and Bible scholars, have prevented many from appreciating St. Paul's explicit teaching that God is merciful to all in the end. This second edition of Talbott's classic work is fully revised, updated, and substantially expanded with new material. ALSO AVAILABLE IN AUDIO FORMAT The Inescapable Love of God is also available as an unabridged audiobook wonderfully narrated by the actor George W. Sarris (running time: 11 hours and 2 minutes). The audiobook can be downloaded from [christianaudio.com](http://christianaudio.com) and Audible.

Of the world's three major religions, only Christianity holds to a doctrine of original sin. Ideas are powerful, and they shape who we are and who we become. The fact that many Christians believe there is something in human nature that is, and will always be, contrary to God, is not just a problem but a tragedy. So why do the doctrine's assumptions of human nature so infiltrate our pulpits, sermons, and theological bookshelves? How is it so misconstrued in times of grief, pastoral care, and personal shame? How did we fall so far from God's original blessing in the garden to this pervasive belief in humanity's innate inability to do good? In this book, Danielle Shroyer takes readers through an overview of the historical development of the doctrine, pointing out important missteps and overcalculations, and providing alternative ways to approach often-used Scriptures. Throughout, she brings the primary claims of original sin to their untenable (and unbiblical) conclusions. In *Original Blessing*, she shows not only how we got this doctrine wrong, but how we can put sin back in its rightful place: in a broader context of redemption and the blessing of humanity's creation in the image of God.

This book discusses topics related to the topological structure and biological function of gene networks regulated by microRNAs. It focuses on analyzing the relation between topological structure and biological function, applying these theoretical results to gene networks involving microRNA, illustrating their biological mechanisms, and identifying the roles of microRNA in controlling various phenomena emerging from the networks. In addition, the book explains how to control the complex biological phenomena using mathematical tools and offers a new perspective on studying microRNA. It is a useful resource for graduate students and researchers who are working on or interested in microRNAs and gene network.

This volume explores the climates, landscapes, ecosystems and hazards that comprise the Mediterranean world. It traces the development of the Mediterranean landscape over very long timescales and examines modern processes and key environmental issues in a wide range of settings. The Mediterranean is the only region on Earth where three continents meet and this interaction has produced a very distinctive Physical Geography. This book examines the landscapes and processes at the margins of these continents and the distinctive marine environment between them. Catastrophic earthquakes, explosive volcanic eruptions and devastating storms and floods are intimately bound up within the history and mythology of the Mediterranean world. This is a key region for the study of natural hazards because it offers unrivalled access to long records of hazard occurrence and impact through documentary, archaeological and geological archives. The Mediterranean is also a biodiversity hotspot; it has been a meeting place for plants, animals and humans from three continents throughout much of its history. The Quaternary records of these interactions are more varied and better preserved than in any other part of the world. These records have provided important new insights into the tempo of climate, landscape and ecosystem change in the Mediterranean region and beyond. The region is unique because of the very early and widespread impact of humans in landscape and ecosystem change - and the richness of the archaeological and geological archives that chronicle this impact. This book examines this history and these interactions and places current environmental issues in long term context. Recent years have seen much controversy regarding hell: Do we go to heaven or hell when we die? Or do we cease to exist? Are believers and unbelievers ultimately saved in the end? *Four Views on Hell* highlights why the church still needs to wrestle with the doctrine of hell. In the familiar counterpoints format, four leading scholars introduce us to the current views on eternal judgment, with particular attention being given to the new voices that have entered the debate. Contributors and views include: Denny Burk: Eternal Conscious Torment John Stackhouse: Annihilationism (Conditional Immortality) Robin Parry: Universalism (Ultimate Reconciliation) Jerry Walls: Purgatory Preston Sprinkle concludes the discussion by evaluating each view, noting significant points of exchange between the essayists. The interactive nature of the volume allows the reader to reflect on the strengths and weaknesses of each view and come to an informed conclusion. **BONUS CONTENT:** Includes entire first edition of *Four Views on Hell* to help readers grasp the history of the discussion and how it has developed over the last twenty years.

Can Christians act like Christians even when they disagree? In these wild and diverse times, right and left battle over the airwaves, proliferate square off against prochoicers, gay liberationists confront champions of the traditional family, artists and legislators tangle, even Christians fight other Christians whose doctrines aren't "just so." Richard Mouw has been actively forging a model of Christian civil conversation with those we might disagree with—atheists, Muslims, gay activists and more. He is concerned that, too often, Christians have contributed more to the problem than to the solution. But he recognizes—from his dialogues with those from many perspectives—that it's not easy to hold to Christian convictions and treat sometimes vindictive opponents with civility and decency. Few if any people in the evangelical world have conversed as widely and sensitively as Mouw. So few can write more wisely or helpfully than Mouw does here about what Christians can appreciate about pluralism, the theological basis for civility, and how we can communicate with people who disagree with us on the issues that matter most.

A collage-illustrated collection of poems and spirituals inspired by the life and work of civil rights advocate Fannie Lou Hamer.

A provocative and balanced examination of our current social and political situation—by a cutting-edge philosopher of our times. The world is in turmoil. As populist waves roil in the UK, Europe, Turkey, Russia, Asia—and most visibly, the U.S., with the election of Donald Trump—nationalist and extremist political forces threaten the progress made over many decades. Democracies are reeling in the face of nihilism and narcissism. How did we get here? And how, with so much antagonism, cynicism, and discord, can we mend the ruptures in our societies? In this provocative work, philosopher Ken Wilber applies his Integral approach to explain how we arrived where we are and why there is cause for hope. He lays much of the blame on a failure at the progressive, leading edge of society. This leading edge is characterized by the desire to be as just and inclusive as possible, and to it we owe the thrust toward women's rights, the civil rights movement, the environmental movement, and the concern for oppression in all its forms. This is all evolutionarily healthy. But what is unhealthy is a creeping postmodernism that is elitist, "politically correct," insistent on an egalitarianism that is itself paradoxically hierarchical, and that looks down on "deplorables." Combine this with the techno-economic demise of many traditional ways of making a living, and you get an explosive mixture. As Wilber says, for some Trump voters: "Everywhere you are told that you are fully equal and deserve immediate and complete empowerment, yet everywhere you are denied the means to actually achieve it. You suffocate, you suffer, and you get very, very mad." It is only when members of society's leading edge can heal themselves that a new, Integral evolutionary force can emerge to move us beyond the social and political turmoil of our current time to offer genuine leadership toward greater wholeness.
