Internet Dating deals primarily with the experiences of UK and Australian daters, examining their online accounts to see what kinds of narratives, norms, emotions and 'chemistry' shape their dating. Has the emergence and growth of internet dating changed the dating landscape for the better? Most commentators, popular and academic, ask whether online dating is more efficient for individuals than offline dating. We prefer a socio-political perspective. In particular, the book illustrates the extent to which internet dating can advance gender and sexual equality. Drawing on the voices of internet daters themselves, we show that internet dating reveals how social change often arises in the unassuming, everyday and familiar. We also pay attention to often ignored older daters and include consideration of daters in Africa, Scandinavia, South America, Asia and the Middle East. Throughout, we explore the pitfalls and pleasures of men and women daters navigating unconventional directions towards more equitable social relations.

The population over age 50 is larger than ever in history. According to the U.S. Census Bureau, 32.1 percent of the U.S. population were age 50 and over in 2011. This demographic is also healthier, more aware, more youthful, and more vocal than any previous older generation. Thanks to ongoing medical discoveries, the sexual revolution, and the Internet, today's seniors are also sexier than ever — or at least they're now willing to talk and ask about sex as never before. They are the generation that discovered clitoral orgasms, vibrators, and Viagra,

and there's no stopping the thirst for knowledge and pleasure now. Since 2005, Joan Price has penned *Better Than I Ever Expected: Straight Talk About Sex After Sixty* and emerged as the go-to sexpert for the over-50 population. Price's savvy advice, honesty, helpfulness, and humor garnered awareness in the media, in professional circles of therapists and sex educators, and among the huge population of people over 50 who hunger for real information from an age appropriate author. A New York Times Bestseller An audacious, irreverent investigation of human behavior—and a first look at a revolution in the making Our personal data has been used to spy on us, hire and fire us, and sell us stuff we don't need. In *Dataclysm*, Christian Rudder uses it to show us who we truly are. For centuries, we've relied on polling or small-scale lab experiments to study human behavior. Today, a new approach is possible. As we live more of our lives online, researchers can finally observe us directly, in vast numbers, and without filters. Data scientists have become the new demographers. In this daring and original book, Rudder explains how Facebook "likes" can predict, with surprising accuracy, a person's sexual orientation and even

intelligence; how attractive women receive exponentially more interview requests; and why you must have haters to be hot. He charts the rise and fall of America's most reviled word through Google Search and examines the new dynamics of collaborative rage on Twitter. He shows how people express themselves, both privately and publicly. What is the least Asian thing you can say? Do people bathe more in Vermont or New Jersey? What do black women think about Simon & Garfunkel? (Hint: they don't think about Simon & Garfunkel.) Rudder also traces human migration over time, showing how groups of people move from certain small towns to the same big cities across the globe. And he grapples with the challenge of maintaining privacy in a world where these explorations are possible. Visually arresting and full of wit and insight, *Dataclysm* is a new way of seeing ourselves—a brilliant alchemy, in which math is made human and numbers become the narrative of our time.

A comprehensive and intimate guide to finding, keeping, and enjoying love after fifty, the best kind of love there is. Studies keep showing that love after fifty is more satisfying than at any other stage in life, and it makes sense: at this stage, you are more emotionally stable and more focused on the present; you know what you absolutely have to have, but also what you can live without; partnering is no longer about building family and fortune—it's about sharing intimacy as grounded individuals. And sex isn't pass/fail anymore, but about becoming erotic friends. So if this is the promised land, how do you get there? In *Love After 50*, journalist Francine Russo interviewed the best experts in the field and dozens of couples to help show the way. Her practical advice includes: -How to recover from the emotional damage of divorce, the grief of widowhood, or a history of unfulfilling relationships -How to build realistic requirements for a partner -What attitudes to bring to dating -How to overcome the physical challenges of sex and embrace your erotic selves -How to evaluate the financial, emotional, and practical results of marrying, living together, or living apart -How to deal with (hostile) adult kids to safeguard your relationship and family *Love After 50* is not only practical, it is unassuming and candid. It

is full of stories of real people (including the author's own), with vivid examples of couples who have overcome their pasts to form healthy and nurturing partnerships. In other words, it's as real as love after fifty can be.

This adult book was written to help seniors of both sexes, who may be widowed or divorced, and are now exposed to an arena in which they are unfamiliar, and ill equipped to cope. The book contains several chapters of hints or suggestions on how to conduct oneself in an attempt to find a partner, and what is necessary to find a comfortable single senior existence. It covers subjects like how today's dating differs from that of years ago, as well as the new unwritten rules for senior dating. Several chapters chronicle the ups and downs of the author as he travels and dates females of all sizes and shapes and age groups. His zeal is that of a much younger man and is never ending in his quest for a meaningful relationship. However his efforts, in many cases, serve as an example of what not to do. The how and why of dating for seniors, are discussed, as are situations to be cognizant of, and situations to be aware of. Possible opportunities of where and how to find a partner is discussed in detail with telephone numbers of various groups. The pro's and con's of joining singles groups is one of the many subjects explored. What dating is all about for seniors and how each date can be a learning process, is

included and what is acceptable and not acceptable behavior. It explains how some single females who may not be cognizant of their behavior, are actually subconsciously setting themselves up psychologically, to avoid any kind of a long term commitment. Many seniors follow standards learned in their youth, including proper dress and behavior, which is sometimes, unknown to them, to their detriment. How to avoid dead-end situations is one of the many situations shown by example. One chapter is devoted to Internet dating and the wild personal experiences, both good and bad, of the author, in exploring this particular avenue. Several chapters are devoted to the outrageous sexual experiences of the author while dating single ladies of various ages from 21 to 65 years old. His experiences during his travels, inside and outside the country, plus a singles cruise, are factual and hilarious. Reading

A raw and funny memoir about sex, dating, and relationships in the digital age, intertwined with a brilliant investigation into the challenges to love and intimacy wrought by dating apps, by firebrand New York Times—bestselling author Nancy Jo Sales At forty-nine, famed *Vanity Fair* writer Nancy Jo Sales was nursing a broken heart and wondering, “How

did I wind up alone?" On the advice of a young friend, she downloaded Tinder, then a brand-new dating app. What followed was a raucous ride through the world of online dating. Sales, an award-winning journalist and single mom, became a leading critic of the online dating industry, reporting and writing articles and making her directorial debut with the HBO documentary *Swiped: Hooking Up in the Digital Age*. Meanwhile, she was dating a series of younger men, eventually falling in love with a man less than half her age. *Nothing Personal* is Sales's memoir of coming-of-middle-age in the midst of a new dating revolution. She is unsparingly honest about her own experience of addiction to dating apps and hilarious in her musings about dick pics, sexting, dating FOMO, and more. Does Big Dating really want us to find love, she asks, or just keep on using its apps? Fiercely feminist, *Nothing Personal* investigates how Big Dating has overwhelmed the landscape of dating, cynically profiting off its users' deepest needs and desires. Looking back through the history of modern courtship and her own relationships, Sales examines how sexism has always been a factor for women in dating, and asks what the future of courtship will bring, if left to the designs of Silicon Valley's tech giants—especially in a time of social distancing and a global pandemic, when the rules of romance are once again changing. **ANATOMY OF COMMUNICATION** reveals the

fascinating details of how we use our minds, emotions, voices, eyes, facial muscles, body gestures, dress, life style in short, everything we are to send and receive hundreds of messages every day. We have evolved so many subtle techniques for exchanging messages that we are seldom aware of them. This book shows how a thorough knowledge of these techniques not only improves our ability to project our own ideas, feelings and intentions, but our skill at Interpreting and handling the messages beamed at us. ANATOMY OF COMMUNICATION shows you how to: compromise with a minimal amount of pain and maximum of success; use your outer self to convey your Inner self; open new avenues of communication, mend lines that have broken down, end cut off ones that only threaten disaster; disagree without being disagreeable; use body language to state or reinforce your meaning; put forth your own views in small groups; and cope with real one from the various types of people; plus scores of other practical ways to implement your day-to-day communication. Designed so that you can note your own experiences and reactions as you read, this exciting book also sets up sample simulations with which you can practice the suggestions offered throughout. Written with warmth and wit, it is a living example of the power of everything within its covers.

Who likes being called a "Senior Citizen"? Not many.

Even though the reality of age may demand the description, there is a more accurate way to speak of many older people who find themselves alone.

Author Samantha Landy prefers the phrase Savvy Senior Singles for those who are mature but still very much young at heart-and living without a partner.

Her practical insights give you the nudge needed to live a successfully fulfilling second-half of life.

Old enough to exude confidence, style, sophistication, and sex appeal — but young at heart enough to still enjoy the excitement of a younger man — the Cougar is a woman who knows what she wants. Relationship and sex columnist Valerie Gibson illuminates the wild world of mature women dating younger men, and uses her trademark wit to describe the excitement, satisfaction, drawbacks and pitfalls. From keeping up with a younger paramour to avoiding meeting his mother, Cougar is packed with valuable dating advice for today's single woman no matter what her age. Never losing sight of the liberating, empowering aspects to the Cougar lifestyle, Gibson sheds new light on those ladies looking to spice things up with the younger set.
