Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

1984 is George Orwell's terrifying vision of a totalitarian future in which everything and everyone is slave to a tyrannical regime lead by The Party. Winston Smith works for the Ministry of Truth in London, chief city of Airstrip One. Big Brother stares out from every poster, the Thought Police uncover every act of betrayal. When Winston finds love with Julia, he discovers that life does not have to be dull and deadening, and awakens to new possibilities. Despite the police helicopters that hover and circle overhead, Winston and Julia begin to question the Party; they are drawn towards conspiracy. Yet Big Brother will not tolerate dissent - even in the mind. For those with original thoughts they invented Room 101. . .

Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

The benefits of collaborative learning are well documented--and yet, almost every teacher knows how group work can go wrong: restless students, unequal workloads, lack of accountability, and too little learning for all the effort involved. In this book, educators Nancy Frey, Douglas Fisher, and Sandi Everlove show you how to make all group work productive group work: with all students engaged in the academic content and with each other, building valuable social skills, consolidating and extending their knowledge, and increasing their readiness for independent learning. The key to getting the most out of group work is to match research-based principles of group work with practical action. Classroom examples across grade levels and disciplines illustrate how to \* Create interdependence and positive interaction \* Model and guide group work \* Design challenging and engaging group tasks \* Ensure group and individual accountability \* Assess and monitor students' developing understanding (and show them how to do the same) \* Foster essential interpersonal skills, such as thinking with clarity, listening, giving useful feedback, and considering different points of view. The authors also address the most frequently asked questions about group work, including the best ways to form groups, accommodate mixed readiness levels, and introduce collaborative learning routines into the classroom. Throughout, they build a case that productive group work is both an essential part of a gradual release of responsibility instructional model and a necessary part of good teaching practice.

Now there are three distinct Reader's Notebooks to help students grades K through 8 become better readers through writing. New! Reader's Notebook: Primary (recommended for Grades K-2) Reader's Notebook (recommended for Grades 2-4) Reader's Notebook: Advanced (recommended for Grades 4-8) Here's an engaging way for primary grade (K-2) students to respond to reading-through thinking, talking, drawing, and writing. Fountas & Pinnell Reader's Notebook: Primary is an 8 1/2 x11 spiral notebook organized into three color-coded tabbed sections: All About Me, Books I Read, and Letters and Words. It is specifically designed for younger children who may not yet be writing, with ample space to respond through both drawing and writing, with room for teacher support. All About Me recognizes the younger child's interest in their own developing identities-as individuals and as readers-with space for them to draw and write about themselves, their friends and family, and the books and authors they love. Books I Read outlines the steps for Readers' Workshop in a simple format that includes illustrations that support the print, and provides space for children to record the titles and authors of books they have read, along with space to draw and write about those books. The helpful Letters and Words section provides children with an alphabet chart, high-frequency words, a chart for children to record words as they encounter them, and an Alphabet Linking Chart. Reader's Notebook: Primary promotes reflection and dialogue about reading and is an excellent assessment tool for documenting reading achievement over time in a readers' workshop that includes independent reading, guided reading, and literature study (book clubs). Used throughout the academic year, the notebook serves as a continual record of one reader's book list, interests, and reading responses. The Reader's Notebook: Primary is also available in 5-packs.

Productive Group Work How to Engage Students, Build Teamwork, and Promote Understanding ASCD

In *The 20/20 Diet*, Dr. Phil McGraw identifies seven reasons other diets fail people over and over again: hunger, cravings, feeling of restriction, impracticality and expense, boredom, temptations, and disappointing results or plateaus. Then, he addresses each of these roadblocks by applying the latest research and theories that have emerged since his last best seller on the same topic, *The Ultimate Weight Solution*. Dr. Phil and his team have created a plan that you can start following right now and continue working for the rest of your life. In this diet, readers will start by eating only 20 key ingredients, called the "20/20 Foods," which theories indicate may help enhance your body's thermogenesis and help you feel full. But that's just the beginning. This book explains why you haven't been able to lose the weight before, and empowers you with cognitive, behavioral, environmental, social and nutritional tools so you can finally reach your goal, and learn lifelong healthy habits to maintain those results.

Jan Richardson's highly anticipated update to the classic bestseller *The Next Step in Guided Reading* helps you and your students move forward."

New York Times bestseller From the New York Times bestselling author of *SHRED* and *Blast the Sugar Out*, the ultimate guide to clean eating! What is clean eating? In his newest diet book, Dr. Ian K. Smith teaches readers the benefits of clean eating and how to implement it in their own lives. He tells readers how to easily reduce unhealthy processed foods in their diets, a key to weight loss, disease prevention, and overall health. *The Clean 20* focuses on twenty clean foods--from avocado to whole wheat pasta and everything in between--that readers can easily find, prepare, and incorporate into their diets. *The Clean 20* includes a complete clean eating program with a daily meal plan, 60 recipes and substitutions, as well as 20 minute easy-to-work-in workouts. Dr. Ian knows what works: it's not eliminating food groups, but choosing foods within each group wisely to satisfy the palate and the body's nutritional demands. *The Clean 20* isn't just vegetables. Grains are in. And so is fruit, fat, meat and fish. When palate and nutrition are in sync, weight loss not only follows, it sticks. *The Clean 20* is a life and body changer.
