"Over Two Million Copies Sold" The Road to Serfdom By Friedrich A. Hayek
Condensed Edition The Road to Serfdom is a book written by the Austrian-born economist and philosopher Friedrich von Hayek (1899-1992) between 1940-1943, in which he "[warns] of the danger of tyranny that inevitably results from government control of economic decision-making through central planning." He further argues that the abandonment of individualism and classical liberalism inevitably leads to a loss of freedom, the creation of an oppressive society, the tyranny of a dictator, and the serfdom of the individual. Significantly, Hayek challenged the general view among British academics that fascism (and National Socialism) was a capitalist reaction against socialism. He argued that fascism, National Socialism and socialism had common roots in central economic planning and empowering the state over the individual. Since its publication in 1944, The Road to Serfdom has been an influential and popular exposition of market libertarianism. It has sold over two million copies. The Road to Serfdom was to be the popular edition of the second volume of Hayek's treatise entitled "The Abuse and Decline of Reason," and the title was inspired by the writings of the 19th century French classical liberal thinker Alexis de Tocqueville on the "road to servitude." The book was first published in Britain by Routledge in March 1944, during World War II, and was quite popular, leading Hayek to call it "that unobtainable book," also due in part to wartime paper rationing. It was published in the United States by the University of Chicago Press in September 1944 and achieved great popularity. At the arrangement of editor Max Eastman, the American magazine Reader's Digest published an abridged version in April 1945, enabling The Road to Serfdom to reach a wider popular audience beyond academics. The Road to Serfdom has had a significant impact on twentieth-century conservative and libertarian economic and political discourse, and is often cited today by commentators.

Offers a visual guide, with brief explanatory text, to comparative sizes, heights, weights, and numbers in such areas as capacity, population, growth, weather, disasters, speed, and others

The Washington Post hails Greil Marcus as our greatest cultural critic. Writing in the London Review of Books, D. D. Guttenplan calls him probably the most astute critic of American popular culture since Edmund Wilson. For nearly thirty years, he has written a remarkable column that has migrated from the Village Voice to Artforum, Salon, City Pages, Interview, and The Believer and currently appears in the Barnes & Noble Review. It has been a laboratory where Marcus has fearlessly explored and wittily dissected an enormous variety of cultural artifacts, from songs to books to movies to advertisements, teasing out from the welter of everyday objects what amounts to a de facto theory of cultural transmission. Published to complement the paperback edition of *The History of Rock & Roll in Ten Songs*, *Real Life Rock* reveals the critic in full: direct, erudite, funny, fierce, vivid, astute, uninhibited, and possessing an unerring instinct for art and fraud. The result is an indispensable volume packed with startling arguments and casual brilliance.

From the afterlife—a new perspective on your life "I know this may come as a shock, and you know I'm not fond of using stale one-liners, but—'reports of my death have been greatly exaggerated.' I'm as alive now as I was on the day we met, except, maybe, more so." If the dead could speak, don't you wonder what they would say to those of us they've left behind? What would they tell us to soothe our sorrow for their loss, calm our fears of what happens when we die, and fire us up to live the best possible lives we can right now? In pages filled with wisdom, humor, and, yes, joy, New York Times best-selling author Mike Dooley explores our most pressing and profound questions about the afterlife—and this life—from the fresh perspective of those who have made the transition to the next phase. Among the revelations and insights they share: · We were ready; you are not. · There's no such thing as a devil or hell. · We're sorry for any pain we may have caused. · Your pets are just as crazy, brilliant, and loving here as they were there. · Nothing we say can prepare you for the beauty of the moment you arrive. You'll learn that our loved ones are not lost to us; that our time on earth is both a school and an adventure; that, all appearances to the contrary, life truly is fair; and that we have it in us to reshape our own fortunes, starting today.
