"Intricate and compelling ... Ted Allbeury is one of the most skilled wordsmiths we've got, ranking with le Carr, Deighton, Forsyth, and Gardner." -- The Gloucester Citizen, U.K. "Ted Allbeury is one of our best spy writers, quiet, thoughtful, and menacingly compelling." -- The Birmingham Post, U.K. "Absorbing and sturdily crafted." -- The Literary Review A gripping tale of love and treachery, this novel by a former British intelligence officer explores the reasons why men and women betray their countries and each other. The cast includes Jan Massey, Head of British Intelligence in Berlin and a passionate anti-Communist who falls in love with the wife of a KGB officer; Arthur Johnson, a lowly signalman in the Berlin office who dreams of money and power; civil servant Eric Mayhew, stung by an unjust act of authority; and mathematician Jimbo Vick, lured into betrayal by a seductive Soviet agent. Although they operate under different motivations and circumstances, their roles in the intelligence community will connect them as they frantically attempt to evade a day of reckoning. "No one twitches the strings more expertly than Allbeury," noted The Observer, and indeed, Ted Allbeury's experience as a Cold War-era spy adds a thrilling realism to this story of the egotism, passion, and desperation that underlie acts of treason.

turns and, sometimes, U-turns. Robert Petterson—popular speaker, storyteller, and author—has been a student for his entire life of what God is teaching us through those real-life U-turns. In this book, he compiles 90 amazing stories that teach lessons you won't easily forget. Each devotional ends with a compelling thought about life and God. Be amazed. Be encouraged. Learn the lessons God is teaching through people's lives.

Der seit Jahrzehnten schwelende Konflikt um die Koreanische Halbinsel heizt sich seit Monaten zu einer den Weltfrieden bedrohenden Auseinandersetzung auf. Der nordkoreanische Machthaber Kim Jong-un testet Atomwaffen und Raketen, und US-Präsident Donald Trump droht dafür mit der totalen Vernichtung dieses Landes. Erschrocken mahnen Politiker aus aller Welt, vom deutschen Außenminister über den UNO-Generalsekretär bis zum russischen Präsidenten, eine friedliche Lösung des Konflikts an, denn ein atomarer Weltbrand droht! Doch was wissen wir eigentlich über den Konflikt, seine Vorgeschichte, seine aktuelle Brisanz und die handelnden Akteure? Die drei im vorliegenden Band versammelten Experten, die Koreanistikprofessorin Helga Picht, der Asienkenner Rainer Werning und der politische Publizist und Philosoph Arnold Schölzel, bringen Klarheit in die Problematik. Gegen die einseitigen Berichte in den westlichen Medien setzen sie eine umfassende Betrachtung aller Aspekte. Denn: Nur wer die Hintergründe versteht, kann sich selbst ein reales Bild machen. Ein kluges Buch genau zur rechten Zeit und eine unverzichtbare Lektüre für alle, die sich Aufklärung statt Propaganda wünschen.

The Methuen Drama Handbook of Theatre History and Historiography is an authoritative guide to contemporary debates and practices in this field. The book covers the key themes and methods that are current in theatre history research, with a particular focus on expanding the object of study to include engagement with theatre and performance practices and the development of theatre histories around the world. Central to the book are eighteen specially commissioned essays by established and emerging scholars from a wide range of international contexts, whose discussion of individual case studies is predicated on their understanding and experience of their 'local' landscape of theatre history. These essays reveal where important work continues to be done in the field and, most valuably, draws on academic contexts beyond the Western academy to expand our knowledge of the exciting directions that such an approach opens up. Prefaced by an introduction tracing the development of the discipline of theatre history and changing historiographical approaches, the Handbook explores current issues pertaining to theatre and performance history research, as well as providing up to date and robust introductions to the methods and historiographic questions being explored by researchers in the field. Featuring a series of essential research tools, including a detailed list of resources and an annotated bibliography of key texts, this is an indispensable scholarly handbook for anyone working in theatre and performance history and historiography.

Media Law and Ethics is a comprehensive overview and a thoughtful introduction to media law principles and cases as well as related ethical concerns relevant to the practice of professional communication. This is the first textbook to explicitly integrate both media law and ethics within one volume. Since it integrates both current law and ethical queries, it is ideal for both undergraduate and graduate courses in media law and ethics. Co-author Kyu Ho Youm expands this edition's international scope, updating and broadening his chapter on international and foreign law. The book also covers the most timely and controversial issues in modern American media. The new fifth edition has been updated with current events and discusses the potential impact they have.

Juju 'Round The World is a Non-fiction international children's book series that details the journey of a 5-year-old African American girl as she moves from Atlanta, GA to Japan with her mom and brother. As with many people, fear of the unknown is scary. Could you imagine a drastic change at such a young age? Juju quickly finds out that all change isn't bad as she embraces the new culture introduced to her. This international travel series aims to bridge the gap between what is often thought of as the impossible for many people of color within inner cities in the US with the rest of the world. Join Juju as she meets new people and explores different cultures while traveling the world with her family.

This handbook is one of the first comprehensive research and teaching tools for the developing area of global media ethics. The advent of new media that is global in reach and impact has created the need for a journalism ethics that is global in principles and aims. For many scholars, teachers and journalists, the existing journalism ethics, e.g. existing codes of ethics, is too parochial and national. It fails to provide adequate normative guidance for a media that is digital, global and practiced by professional and citizen. A global media ethics is being constructed to define what responsible public journalism means for a new global media era. Currently, scholars write texts and codes for global media, teach global media ethics, analyse how global issues should be covered, and gather together at conferences, round tables and meetings. However, the field lacks an authoritative handbook that presents the views of leading thinkers on the most important issues for global media ethics. This handbook is a milestone in the field, and a major contribution to media ethics.

From its first edition the purpose of Walford has been to identify and evaluate the widest possible range of reference materials. No rigid definition of reference is applied. In addition to the expected bibliographies, indexes, dictionaries, encyclopaedias, and directories, a number of important textbooks and manuals of general practice are included. While the majority of the items are books, Walford is a guide to reference material. Thus periodical articles, microforms, online and CD-ROM sources are all represented. In this volume a particular effort has been made to improve coverage of the latter two categories.

The NAB Engineering Handbook is the definitive resource for broadcast engineers. It provides in-depth information about each aspect of the broadcast chain from audio and video contribution through an entire broadcast facility all the way to the antenna. New topics include Ultra High Definition Television, Internet Radio Interfacing and Streaming, ATSC 3.0, Digital Audio Compression Techniques, Digital Television Audio Loudness Management, and Video Format and Standards Conversion. Important updates have been made to incumbent topics such as AM, Shortwave, FM and Television Transmitting Systems, Studio Lighting, Cameras, and Principles of Acoustics. The big-picture, comprehensive nature of the NAB Engineering Handbook will appeal to all broadcast engineers—everyone from broadcast chief engineers, who need expanded knowledge of all the specialized areas they encounter in the field, to technologists in specialized fields like IT and RF who are interested in learning about unfamiliar topics. Chapters are written to be accessible and easy to understand by all levels of engineers and technicians. A wide range of related topics that engineers and technical managers need to understand are covered, including broadcast documentation, FCC practices, technical standards, security, safety, disaster planning, facility planning, project management, and engineering management.

Features country-by-country listings of long-, medium-, and shortwave stations by frequency, time, and language; an address book of worldwide TV stations; and maps of principal transmitter sites

In July 1923, less than three years after Westinghouse station KDKA signed on, company engineer Frank Conrad began regular simulcasting of its programs on a frequency in the newly-discovered shortwave range. It was an important event in a technological revolution that would make dependable worldwide radio communication possible for the first time. In subsequent years, countless stations in practically all countries followed suit, taking to shortwave to extend reception domestically or reach audiences thousands of miles away. Shortwave broadcasting would also have an important role in World War II and in the Cold War. In this, his fourth book on shortwave broadcast history, the author revisits the period of his earlier work, *On the Short Waves, 1923-1945*, and focuses on the stations that were on the air in those early days. The year-by-year account chronicles the birth and operation of the large international broadcasters, as well as the numerous smaller stations that were a great attraction to the DXers, or long-distance radio enthusiasts, of the time. With more than 100 illustrations and extensive notes, bibliography and index, the book is also a valuable starting point for further study and research.

Steve is just an ordinary guy living in a rural town north of Toronto. And when the world goes to shit, everyone looks to him for help. Heck, he even gets a girlfriend out of it. But survival in a broken world can be tough when everyone wants to have what you have. Even the corpses lumber after him through the adventure of staying alive. The topper of his whole existence is the bikers, they blame him for everything that happens. And when things go real wrong, they try to take their revenge. Little do they know he has friends. From the mind of Douglas Owen comes the story of the zombie apocalypse as it unfolds just north of Toronto. Steve is nice, polite, caring, and trying to survive in a country with gun control laws.

Winner of the 2019 Robert Picard Book Award *The Handbook of Media Management and Economics* has become a required reference for students, professors, policy makers and industry practitioners. The volume was developed around two primary objectives: assessing the state of knowledge for the key topics in the media management and economics fields; and establishing the research agenda in these areas, ultimately pushing the field in new directions. The Handbook's chapters are organized into parts addressing the theoretical components, key issues, analytical tools, and future directions for research. With its unparalleled breadth of content from expert authors, the Handbook provides background knowledge of the various theoretical dimensions and historical paradigms, and establishes the direction for the next phases of research in this evolving arena of study. Updates include the rise of mobile and social media, globalization, audience fragmentation and big data.
